

Quality Policy

SEWTECH Industries Pvt Ltd. is committed to Engineering, Supply and Maintain electrical distribution panels by implementing Quality Management System.

We explore opportunities in the field of electrical distribution systems by involving employees to ensure continual improvement in the performance of the company.

All employees, vendors and subcontractors will be made aware of process targets through continuous training and it will be reviewed periodically to achieve organizational goal.

The risk management process is aimed at identification, assessment, mitigation and monitoring risks from pre-bid to delivery stage.
